Summary

- Technical editor and JavaScript developer with **three years** of experience.
- Active in the Open-Source community. Occassional public speaker.

Experience

2014–Present   **Capco**, *Associate Consultant*, New York, NY.
- Remediated portion of international bank's **$1.45B regulatory fine** by stepping into project manager role mid-project and steering the documentation enhancement of an Actimize anti-money laundering application's IT components.
- Updated documentation framework by introducing living documents in SharePoint and requirements filtering that led to a 10x reduction in effort, from **3000** design and testing documents to **300**.

2015–Present   **Manning Publications**, *Manuscript Reviewer*, New York, NY.
- Improve **six titles** prior to publication by testing source code, verifying readability, and offering feedback on reader needs. Titles include *CSS in Action*, *Learn Haskell*, and *Angular 2 in Action*.

2013–2015   **Barfly**, *Editor*, New York, NY.
- Increased revenue and minimize losses of **more than 15 bars** by identifying employee theft and suggesting workflow, customer experience, and operational improvements in **more than 30** reports.

2013–2015   **Pratt Institute**, *Editorial Assistant, Office of Communications*, New York, NY.
- Attracted new readers to Pratt's quarterly magazine and weekly-updated WordPress website by writing and editing **more than 100** articles and interviews.

2010–2012   **Department of Homeland Security**, *Security Officer*, Fort Lauderdale, FL.
- Exhibited critical thinking, subject matter expertise, and decision making by identifying security incidents, recognizing deviating behavioral patterns, and interviewing hundreds of passengers.
- Passed three security drills designed to test alertness and analytical thinking.

Education

2013–2015   **Masters of Arts**, *Media Studies*, 4.0 GPA.
Pratt Institute, Brooklyn, NY

2004–2009   **Bachelors of Arts**, *Double Degree, English and Humanities*, 3.5 GPA.
Florida State University, Tallahassee, FL

Presentations

2015   **NYC Media Lab Summit**, *QuantFlaunt tech demonstration*.
New York, NY

2015   **IndieCade East**, *Hardware and Software in Central and Eastern Europe*.
Astoria, NY

Open-Source Contributions

2016   **SurviveJS**, Code review and documentation for the essential Webpack + React eBook.

2015   **MongoDB Native NodeJS Driver**, Documentation for the MongoDB Node.js driver.

2015   **Taiga.io**, Documentation for a project management web application with Scrum in mind.
